

A low-angle photograph of several modern skyscrapers with glass facades, reflecting the sky and each other, creating a sense of height and urban density.

Business Structuring

We advise clients on organizing, reorganizing, and dissolving corporations and other business entities. Our goal is to give valuable and prompt responses, allowing clients to minimize costs, enhance value and properly position themselves for the future.

We bring a range of skills needed in the structuring and restructuring context, drawing on resources from our attorneys who focus on banking and financial services, litigation, mergers and acquisitions, real estate, tax and labor and employment law.

We frequently represent companies in distress, handling balance sheet and operational restructurings, workouts and Chapter 11 proceedings. We work with troubled companies, their boards of directors, management, owners, creditors and investors in matters in and outside of court that impact business operations and/or financial matters.

We also assist clients with financial recapitalizations, business reorganizations and liquidations and advise on insolvency issues.
