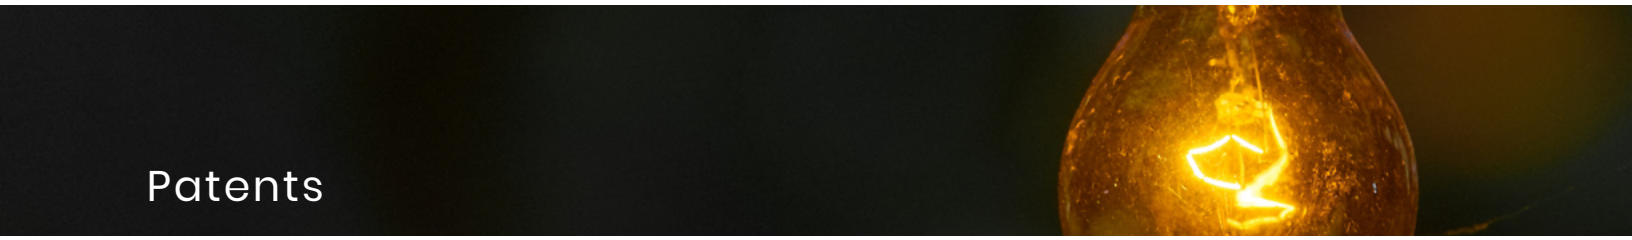
Lowndes



Patents

Registered to practice before the United States Patent and Trademark Office (USPTO), our patent attorneys, provide experience-based, pragmatic counsel to a wide range of clients, from sole inventors and small start-ups to large corporations, hospitals and universities. We help them with cost-effective strategies for the protection of invention rights across a variety of industries:

- Aerospace
- Biotech
- Computers, Software and Other Technology
- Construction
- Defense
- eCommerce
- Electronics and Semi-conductors
- Education
- Healthcare/Medical
- Marine
- Optics
- Real Estate Development
- Tourism

Patent Infringement Litigation

Our firm has handled a wide variety of patent infringement lawsuits in local and U.S. federal courts, on both sides: the defense of patent infringement claims and the prosecution of patent infringements.

Experience

- Representation of boat manufacturer in patent infringement actions against companies manufacturing and selling infringing products.
- Representation of telecommunications company in patent infringement action brought by patent licensing company asserting infringement of patents.
- Representation of novelty light-product company in patent infringement and unfair competition actions against numerous defendants for the importation and sale of products virtually identical to client's patented product.
