Lowndes

Attorneys

Take Your Career to the Next Level

Our firm values the diverse backgrounds and experiences that lateral attorneys bring. Nearly half of our lawyers joined as laterals, including name partner Bill Doster who was recruited by our founder John Lowndes in 1969. The other half have spent decades growing with the firm.

While our paths here differ, we're united by a commitment to excellent client service, collaboration with colleagues, and bettering our community.

If you share these values of outstanding legal counsel, teamwork, and community engagement, we welcome you to consider joining our lateral attorney ranks. Your unique perspectives can enhance our ability to deliver exceptional solutions for our clients.
