

Events

IP in the AI Era: Emerging Issues and Recent Developments

Presentation

Association of Corporate Counsel Central Florida Chapter
11.13.2025

Artificial intelligence is reshaping intellectual property law at an unprecedented pace. From inventorship and patent eligibility to copyright authorship and fair use, recent court decisions are redefining the rules for innovation and compliance. This program will highlight the most impactful cases and what they mean for in-house counsel.

Join **Richard Fredeking**, a Lowndes attorney and registered patent attorney, for a practical discussion on patents, copyrights, and trademarks in the age of AI. Walk away with actionable strategies to safeguard your company's IP, manage risk, and adapt governance frameworks for emerging technologies.

Start time: 11:30 am (Check-in, networking)
Presentation & Lunch 12:00–1:00 pm

In the spirit of giving this season, we invite you to help fight hunger and spread hope by donating a non-perishable food item. Your contributions will be delivered to the Second Harvest Food Bank of Central Florida. For a list of the most needed items, [click here](#).

Don't miss this blend of valuable insights, fun, and the opportunity to make a difference!
